

Volunteering has many benefits. It is a great way to learn about yourself; your likes and dislikes, and careers that you may enjoy. It also gives you the opportunity to help out and give back to the community. The main areas colleges look at for their best applicants, reveals Jill F. ConGruben, author of *College Countdown* (McGraw Hill, 2000), are work, volunteer and summer experiences; school, athletic and community service activities; and awards. You may also end up with a paying job! Here is a list of local volunteer opportunities to help get you started...
