Visitors will receive a pass or be taken to the classroom or activity they wish to visit.

## BOARD OF EDUCATION

The seven members of the Board of Education are elected to five-year terms of office. Board members serve without pay and are responsible for the formulation of educational and school district policies under guidelines imposed by New York State Education Law.

## PUBLIC INFORMATION

The *Iroquois Newsletter* is published and posted to the Iroquois website. The August and May issues will be mailed to all residents. The district newsletter shares with the community important news concerning your schools and their operation. The annual school budget is also available, upon request, through the Business Office at 652-3000, ext. 1201.

## SCHOOL CLOSING

When school must close due to weather or emergency conditions that endanger the health or safety of children, announcements will be on television and radio stations beginning at 6 a.m. Stay tuned to WKBW, WGRZ, WIVB, or WBEN (930 AM).

When Iroquois Schools are closed due to weather or emergency conditions, no bus transportation will be provided. All scheduled student activities will also be canceled for that day and evening, including Community Education classes. If it is necessary to close school after the school day has begun, the same television and radio stations will be notified. Children will be returned home as quickly as conditions allow for safe transport. Parents are encouraged to discuss an emergency plan with their children. **The district also uses an automated telephone alert system called Mass Notification for special event announcements, closings and emergencies. If you have a particular emergency number that you would like us to use for such communication, please be sure to contact the building administrative assistant.**

## REPORT CARDS

The school report card reports the progress of each student throughout the year. Students in **grades K-4** are issued report cards in December, March and June. Special area report cards for these grade levels will be sent in March and June. It is the goal of the district to meet with every parent of K-4 students each year. Parent and school conferences result in better communication and improved student success.

Report cards and progress reports for **grades 5-12** students (except quarter 4) are available via the Parent Portal.

## INCOMPLETE GRADES

Any incomplete grade for students in grades 7-12 must be made up in the five-week period immediately following the last day of the marking period. At the end of five weeks, any remaining incomplete grades will be converted to a 50 by the guidance office. Incomplete grades will be included on the five-week failure list which is distributed to all teachers, coaches, and club advisors for the purpose of monitoring student eligibility.

## ATTENDANCE

**State law requires that children between the ages** of six and sixteen must be in regular attendance at school. Any absence other than personal illness, illness or death in the family, impassable roads due to inclement weather, religious observance, road test, quarantine, required court appearances, medical appointments, approved college visits, approved cooperative work programs, military obligations, administratively approved school-sponsored activities or other such reasons as may be approved by the Board of Education is recorded as unexcused.

Because punctuality and good attendance are basic to the development of good work habits, a minimum requirement of 85% attendance is established for all students. Parental conferences may be requested if attendance falls below the minimum requirement.

**Parents are requested to notify the school when the student will be absent:**

**High School – ext. 7880**  
**Middle School – ext. 6502**  
**Elma Primary – ext. 2001**  
**Marilla Primary - ext. 3001**  
**Wales Primary – ext. 4001**

As required by state law, a child returning to school must bring a note signed by the parent or guardian explaining the reason for the absence.

Medical and dental appointments should be scheduled outside of school whenever possible. Otherwise, students who have such appointments on a regular basis should attempt to avoid missing the same classes. Written parental excuses are required for early dismissal from school.

A student who arrives late for school must bring a note from his parents explaining the reason for the tardiness. **If a student is chronically tardy, his parents may be asked to attend a school conference to discuss corrective measures.**

## RELIGIOUS EDUCATION

The laws of New York State provide for the release of pupils from school once a week to attend classes in religious education. These classes must be held outside of the school and the school may do nothing to assist such classes in supervision, transportation, etc.

A permission card must be on file with the school, signed by the parent in order for the student to be excused.

## CO-CURRICULAR ACTIVITIES AND ATHLETICS

### ELIGIBILITY POLICY

Any student in grades 7-12 involved in a school-related activity or sport with two or more failing and/or incomplete grades will be placed on academic probation, and have five school days to bring these grades to passing once the failure list has been distributed. It is the student's responsibility to have all his/her teachers sign an eligibility sheet, thereby verifying a passing grade, and turn this sheet in to the coach or advisor at the end of the probation period. If this does not occur, the student becomes ineligible to participate in the respective activity or sport. This policy is closely monitored by the club advisors, coaches and guidance counselors.

## CURRICULUM

### Kindergarten Entrance

The entrance age for Kindergarten is 4 years, 9 months on or before September 1. **There are no exceptions to this regulation.** This is a State recommended beginning age.

Kindergarten is an important part of the educational program with a well-defined curriculum. Regular attendance is just as important at this grade level as any other. All pupils are encouraged to have this training before entrance into the first grade. Compulsory age begins at 6 under New York State Law.

Kindergarten registration is held in the spring each year, at which time parents are urged to register eligible children for the following fall. A birth certificate is required as proof of age at the time of Kindergarten registration. Proof of immunization against diphtheria, tetanus, pertussis (usually given in combination), measles, mumps, and rubella (usually given in combination), polio, hepatitis B, and varicella are also required. Please consult your private Health Care Provider or School Nurse for more specific information regarding immunizations.

A screening test of children eligible for Kindergarten is given in spring. These tests help parents identify any problems or special talents their child may have.

## **Primary School Program**

The major purpose of the elementary program for students in grades K-4 is to provide a sound foundation in the basic skills of reading, language arts, and mathematics. Instruction is also given in social studies, computers, science, library skills, art, vocal and instrumental music, and physical education. All three of our primary buildings offer young children opportunities to grow in a caring, nurturing and child-centered environment.

## **Middle School Program**

The Middle School serves students in grades 5-8. Students are housed in the Middle School building on the main campus of the District. The Middle School serves as a transition from elementary to high school.

The curriculum promotes the traditional academic areas. Students also have access to new and varied experiences through exploration courses such as foreign language (beginning in Grade 7), technology education, academic enrichment, computers, music and the fine arts.

## **High School Program**

The High School curriculum in grades 9-12 prepares students for post-secondary education and/or employment following graduation. Students are required to meet the course units set by the Board of Education and the State Education Department for graduation.

## **ACCESS TO STUDENT RECORDS**

Parents or legal guardians of a child under 18 or students and former students over 18 years of age have a right to inspect, review, and challenge information and data in the student's educational record file. Parents should contact Principals or Guidance Counselors to schedule a time to review their child's permanent record file.

Educational records are confidential and may be released or disclosed to a third party only by permission of the parents or students 18 years of age or older.

## **MILITARY RECRUITERS AND INSTITUTIONS OF HIGHER EDUCATION**

The District will comply with request from military recruiters and institutions of higher education (IHE's) for access to the name, address and telephone listing of each secondary school students, except for any student whose parent (or the student, if he or she is at least 18 years of age) **has submitted a written request to opt out of this disclosure**, in which case the information will

not be released without the parent's (or student's, if he or she is at least 18 years of age) prior written consent.

## **PUPIL PERSONNEL SERVICES**

**Christian Hershey**

Ext. 1301

*Director of Instruction,  
Student Services & Assessment*

The Iroquois Central Board of Education subscribes to the philosophy of providing equal educational opportunity for all students. It is the responsibility of the schools to integrate special education students into the mainstream of school society to the greatest extent possible. Therefore, our goal is to provide a variety of educational experiences, within and outside the Iroquois District, which will ensure a placement in the least restrictive environment and provide for the maximum academic growth, emotional stability, and physical health of each student.

According to Part 200 of the Commissioner's Regulations, each school district in New York State is required to establish a Committee on Special Education (CSE) and a Committee on Preschool Special Education (CPSE). These Committees, in consultation with parents, review and evaluate the educational needs of each child referred to them. Appropriate programs and services to meet the individual needs of the eligible child are developed, then recommended by the CSE or CPSE to the Board of Education. Services to children differ, depending on the extent of the disability and the type of remediation to be provided. All matters referred to the Committee on Special Education or the Committee on Preschool Special Education are considered in a confidential manner and the individual's due process rights are preserved. Contact your building principal or school psychologist if you feel your child may require special education services. A NYS Parent's Guide to Special Education for children ages 5-21 is available on the District website or a hard copy is available upon request.

## **Speech**

Speech therapists are employed to work with those students having speech problems. Early diagnosis and treatment of such speech problems as articulation and language development can usually result in correction, thereby prohibiting a lifelong disability.

## **Physical/Occupational Therapy**

The District provides physical and/or occupational therapy as recommended by the Committee on Special Education or Section 504 Committee.

## **Psychological Services**

The services of the School Psychologist are available to District students. These services include evaluation to assess strengths and/or weaknesses in the following areas: intelligence, achievement, and social adjustment.

A referral for a consultation with a school psychologist can be made by school personnel or parents. An evaluation is done when appropriate and only after written parental consent is received. Psychological evaluations along with other evaluations and academic and health records provide information upon which program recommendations are made. Students may be eligible for programs such as: Remedial, Special Education or Counseling programs. Recommendations provided in a psychological evaluation give a teacher valuable information in the identification of student learning styles and assist in the development of programs that meet the academic and emotional needs of the students.

Parents desiring information about special education may discuss referral procedures, tests used, or recommendations made with the School Psychologist. Arrangements for an appointment with a Psychologist can be arranged by contacting the building principal.

## **GUIDANCE SERVICES**

The function of the Student Support Services Department is to assist students in three areas: academic development, career development and social/emotional development. Counselors and social workers collaborate to provide instruction and support for all students. Individual students also have access to counselors and/or social workers to discuss any personal problems or concerns.

All students and parents are invited to explore the various reference materials that are available on the Student Support Services websites at each level.

If you wish to meet with a counselor, please call the office to schedule an appointment.

## Response to Intervention (RtI/AIS)

### K-8: Response to Intervention (RtI)

The Iroquois CSD has established a comprehensive model of interventions service delivery for students at risk of failure. A combined standard protocol and problem solving intervention model will be employed across the district to serve the needs of students experiencing academic or behavioral difficulties.

In the domain of *reading*, all students will be periodically assessed throughout the academic year to identify potential reading difficulties. Intervention will be provided via standard intervention protocols in the domain of reading, with the option of additional strategy problem solving as needed. In the domains of *mathematics*, *written expression*, and *behavior*, student intervention will be identified by problem solving as needed based on assessment data and other forms of intervention recommendation.

Building level data teams consisting of appropriately trained faculty will meet to review student performance data in accordance with benchmarking periods and predetermined progress monitoring periods.

### 9-12 Academic Intervention Services (AIS)

According to the Commissioner's Regulations Part 80, Academic Intervention Services (AIS) are required for any student at risk of not passing the NYS assessments in grades 9-12. Every pupil who is educationally disadvantaged must be provided access to supplementary remedial services such as Title I and Section 504 of the 1973 Rehabilitation Act.

Pupils needing RtI or AIS receive supplementary assistance. These provide comprehensive and coordinated services which address pupil needs. Careful planning assures equitable delivery of services to students.

## Reading, Math, and Writing Programs

Pupils needing RtI/AIS in reading, writing and/or mathematics receive supplementary assistance. Programs are supported by federal (Title), state, and local (tax levy) funds.

RtI/AIS programs provide comprehensive and coordinated services which address pupil needs. Careful planning assures equitable delivery of services to students.

Students are identified utilizing federal, state, and local criteria including the NYS Competency Testing Program and the district evaluation program. Students continue to receive services until they demonstrate that they have mastered specifically targeted skills.

RtI/AIS services are available to eligible students at the elementary, middle, and high school levels. Students receive assistance in small groups. The services require parental contact and involvement. In determining the need for services, multiple measures of student performance are used. Scoring below proficiency on a state assessment alone is not automatically determined a need for RtI or AIS.

### **Vocational Programs Available to all Students (Section 504)**

Secondary vocational educational programs are available to disabled as well as non-disabled students. For information about vocational courses, contact the Guidance Department at 652-3000, ext. 7876. The district has an established grievance procedure for anyone who feels they have been denied equal access to educational programs. For information regarding this procedure, contact the Section 504 Coordinator: Christian Hershey, PO Box 32, Elma, NY - 652-3000 (ext. 1301). The Iroquois Central School District has an established grievance procedure for the prompt and equitable solution of complaints alleging discrimination based on sex or disability. For information regarding the District's grievance procedure or questions about the District's policy in regard to Section 504, please contact Douglas Scofield, Superintendent of Schools, PO Box 32, 652-3000, ext. 1001.

### **Physical Exams and Testing**

Each School building has a full time Registered Nurse to assist pupils, staff and parents with health issues that come up on a daily basis. The School Physician acts as a health care consultant and provides physical examinations for students, at the signed request of parent or persons in parental relations, in grades Pre -K, kindergarten, 1<sup>st</sup>, 3<sup>rd</sup>, 5<sup>th</sup>, 7<sup>th</sup>, 9<sup>th</sup>, and 11<sup>th</sup> grades, along with any newly registered students, students wishing to participate in middle school and high school sports and for any other reasons deemed necessary as they arise. If you choose to have a physical exam done with your private Health Care Professional, a health examination form may be obtained from any School Nurse's office or the school district website.

Screenings for distance and near vision, hearing, color perception and scoliosis are completed annually for specific grade levels. Any abnormal findings from these screenings will be reported to parents/guardians for follow-up or correction with the student's private health care professional. Records are kept of each child's medical history, height, weight, vision, hearing, color perception, scoliosis screening, and immunizations. The District is now required by the State to report BMI (Body Mass Index) for all students. **Parents may opt out of this reporting upon written notification to the District.**

Physical examinations for working papers may be done by the school physician or family physician. Scheduling for these examinations will be arranged by the school nurse.

Communication between the School Nurse and Home is essential for the best care of our students. Our Nursing staff appreciates your efforts to keep us updated on any health matter that arises for your child. Confidentiality

is kept with regard to all communication between home and school.

All children entering school **MUST** be immunized according to New York State Public Health Law Section 2164 against the following communicable diseases: diphtheria, tetanus, pertussis (usually given in combination), measles, mumps, rubella (usually given in combination), polio, hepatitis B, and varicella. State law also requires tetanus, diphtheria, and pertussis booster for students 11 years or older entering grades 6 through 12, and meningococcal for students 16 years or older. Please consult your private Health Care Professional or School Nurse for more specific requirement information.

Under certain circumstances, when it is necessary for students to take medication during school hours, each School Nurse will cooperate with parents/guardians and private Health Care Professionals. **ALL MEDICATION MUST BE BROUGHT INTO SCHOOL BY THE PARENT/GUARDIAN AND IN ITS ORIGINAL CONTAINER (CHILDREN MUST NEVER TRANSPORT MEDICATION TO OR FROM SCHOOL).** A "Medication Authorization" form must be completed by the child's private Health Care Professional and signed by the parent/guardian in order for the School Nurse to administer ALL medications this includes over the counter and non-prescription medications. These forms are available from each School Nurse or the school district website.

### Other Health Concerns

Please communicate with the school on health matters and consult with the nurse in case of health problems.

### Immunization

All pupils entering school must be immunized against diphtheria, tetanus, pertussis (usually given in combination), measles, mumps, rubella (usually given in combination), polio, hepatitis B, and varicella. State law also requires tetanus, diphtheria, and pertussis booster for students 11 years or older entering grades 6 through 12, and meningococcal for students 16 years or older. Please consult your private Health Care Professional or School Nurse for more specific requirement information.

## STUDENT INSURANCE

Iroquois Central School District provides secondary blanket accident coverage for all students K-12. The coverage takes effect after the individual parent's health insurance coverage (if available) has been exhausted and covers all school activities including co-curricular and interscholastic sports. In the event of an accident claim, please contact your school nurse and/or building principal.

### FREE & REDUCED-PRICE LUNCH POLICY

Guidelines describing eligibility and application forms for free and reduced-price lunches are printed in the Iroquois Newsletter each September. Additional copies are available in the building principal's office. If you believe you are eligible for this program, fill out the application form (one per family) and return it to the building principal. Children participating in this program will not be identified, and lunches will be served to them in the same manner as they are to all students to preserve confidentiality. In order to further protect student's confidentiality, the District has implemented the meal prepay program.

### BREAKFAST & LUNCH PROGRAM

Iroquois operates mandated breakfast and lunch programs, with no local taxpayer monies offsetting its cost. The program provides well-planned, nutritionally sound and tasty meals, using both purchased foods and USDA donated commodities. The menu is planned to offer the student a meal that will provide 1/3 of the child's daily nutritional requirements.

The lunch offers students a choice of entrees, side dishes and milk. This "offer vs. serve" concept was authorized by Congress to reduce waste and save money. In addition to the three types of meals offered daily, a variety of ala cart food items are available. If your child requires specific food substitutions due to medical need, documentation must be received by your child's health care provider. Please contact your child's School Nurse for more information.

Student prices are: Grade K-4 lunch, \$2.75; II/Middle and High School lunch, \$3.00; breakfast K-12 \$1.80.

Parents and students are encouraged to participate in our meal prepay program, *myschoolbucks.com*. It is a secure

online payment and information portal to manage student food service accounts.

## STUDENT PARKING REGULATIONS

Parking on school grounds is a privilege to students who register their motor vehicles in the main office. Only vehicles with a **REGISTERED PERMIT** will be allowed to park. The parking tag should be hung on the car's rear view mirror, facing out. Students are **ONLY** to park in **DESIGNATED AREAS**. The speed limit is 10 MPH. A stopped school bus with flashing lights must not be passed. Lock your car since the school is not responsible for damage to or loss from your car. Park between the lines in the assigned area. Accidents on school property carry the same liability to you as a driver on the highway. It is expected that the privilege to drive to school will not have an adverse effect on your ability to comply with other rules that are in effect at Iroquois, such as tardiness and leaving school grounds without permission. No item, the possession of which is illegal, in violation of school regulations, or which endangers the health, safety, or welfare of persons, shall be stored in or on a vehicle parked on school property. If it is necessary to go to your car during the day, you must obtain a pass from an administrator. Students who drive to school are expected to be punctual. Administration and faculty will enforce the dress code with the primary focus to be supportive of the students. The dress code's purpose is to sustain a positive learning environment for all students based on mutual respect for all.

***Students who violate the student dress code shall be required to modify their appearance by covering or removing the offending item and, if necessary or practical, replacing it with an acceptable item.*** Any student who refuses to do so shall be subject to discipline, up to and including in-school suspension for the day. IN ALL SCHOOLS K-12: The purpose of the dress code at Iroquois Central School District is to ensure a productive learning environment in which all students feel comfortable. Students and parents have responsibility for acceptable dress and appearance. Student's dress affects the culture and climate of the school. One of the values in our district is that we respect the rights and feelings of others; any item of clothing that would be offensive or distracting to others does not fit in our value system. This dress code applies to all students.

- Students must dress so they are able to safely participate in all classroom and school activities, including physical education, laboratory, technology classes, and others. Refer to the above diagram regarding what areas of the body should be covered.

right to not allow backpacks and messenger bags within their classroom.

- Hazardous jewelry cannot be worn, including but not limited to spiked jewelry or wallet chains.
- Footwear should be worn at all times.
- Clothing and personal items must not include any references or connotations to drugs, alcohol, tobacco, hate speech, profanity, inappropriate weapons, or any references of a discriminatory nature. Displays of Confederate flags, swastikas, or other "symbols of hate" are banned on all Iroquois Central School properties.

Students that repeatedly fail to comply with the dress code at Iroquois Central School District will be subject to further discipline including suspension.**

*\*The District may allow exemptions for certain functions*

### Prohibited Student Conduct

The board of education expects all students to conduct themselves in an appropriate and civil manner, with proper regard for the rights and welfare of other students, district personnel and other members of the school community, and for the care of school facilities and equipment.

The best discipline is self-imposed, and students must learn to assume and accept responsibility for their own behavior, as well as the consequences of their misbehavior. District personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

The board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. The rules of conduct listed below (while not all inclusive) are intended to do that and focus on safety and respect for the rights and property of others.

Students who will not accept responsibility for their own behavior and who violate these school rules will be required to accept the penalties for their conduct. Students may be subject to disciplinary action, up to and including suspension from school or removal from a program, when they engage in conduct that is disorderly, insubordinate, disruptive, violent, endangers the safety, morals, health or welfare of others, engage in misconduct on the school bus, or engage in academic misconduct including work/internship sites.

Students are given the opportunity to learn in a safe, positive environment. With that opportunity comes the expectation that students are responsible for their conduct during school hours, and at all school-related activities on or off school property.

Disciplinary action will be taken by the teacher and/or the administrator through a referral process when conduct is in violation of acceptable expectations.

Determinations as to whether conduct or occurrences constitute discrimination or harassment for the purposes of this Policy and its implementing Administrative Regulations will be made consistent with applicable law. Such determinations may depend upon a number of factors, including but not limited to the particular conduct or occurrence at issue, the ages of the parties involved, the context in which the conduct or occurrence takes place, the relationship of the parties to one another, the category or characteristic that is alleged to have been the basis for the action or occurrence, and other considerations as are necessary and consistent with law. The characterizations and examples below are intended to serve as a general guide for individuals in determining whether to file a complaint of discrimination or harassment and should not be construed to add or limit the rights individuals and entities possess as a matter of law.

Discrimination is, generally, the practice of conferring or denying privileges on the basis of membership in a legally protected class. Discriminatory actions may include but are not limited to: refusing to promote or hire an individual on the basis of his/her membership in a protected class, denying an individual access to facilities or educational benefits on the basis of his/her membership in a protected class, or impermissibly instituting policies or practices that disproportionately and adversely impact members of a protected class.

Harassment generally consists of subjecting an individual, on the basis of his/her membership in a protected class, to conduct and/or communications that are sufficiently severe, pervasive, or persistent as to have the purpose or effect of: creating an intimidating, hostile, or offensive environment; substantially or unreasonably interfering with an individual's work or a student's educational performance, opportunities, benefits, or well-being; or otherwise adversely affecting an individual's employment or educational opportunities.

Harassment can include unwelcome verbal, written, or physical conduct which offends, denigrates, or belittles an individual because of his/her membership in a protected class. Such conduct includes, but is not limited to: derogatory remarks, jokes, demeaning comments or behavior, slurs, mimicking, name calling, graffiti, innuendo, gestures, physical contact, stalking, threatening, bullying, extorting, or the display or circulation of written materials or pictures.

#### **Civil Rights Compliance Officer**

The District will designate one or more individuals to serve as Civil Rights Compliance Officer. The Civil Rights Compliance Officer will be responsible for coordinating the District's efforts to comply with and carry out its responsibilities regarding non-discrimination and anti-harassment, including investigations of complaints alleging discrimination, harassment, or the failure of the District to comply with its obligations under relevant non-discrimination and anti-harassment laws and regulations (e.g., the Americans with Disabilities Act, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973).

Prior to the beginning of each school year, the District shall issue an appropriate public announcement or publication which advises students, parents/guardians, employees and other relevant individuals of the District's established grievance procedures for resolving complaints of discrimination and harassment. Included in such announcement or publication will be the name, address, telephone number, and email address of the Civil Rights Compliance Officer(s).

The Civil Rights Compliance Officer(s) for the District is/are established at the District Organizational meeting in July.

#### **Investigation of Complaints and Grievances**

The School District will act to promptly, thoroughly, and equitably investigate all complaints, whether verbal or written, of discrimination and/or harassment based on any of the characteristics described above and will promptly take appropriate action to protect individuals from further discrimination or harassment. In the event an anonymous complaint is filed, the District will respond to the extent possible.

It is essential that any individual who is aware of a possible occurrence of discrimination or harassment immediately report such occurrence. All reports will be directed or forwarded to the District's designated Civil Rights Compliance Officer(s). Such complaints are recommended to be in writing, although verbal complaints of discrimination or harassment will also be promptly investigated in accordance with applicable law and District policy and procedure. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

To the extent possible, all complaints will be treated as confidential. Disclosure may, however, be necessary to

complete a thorough investigation of the charges and/or notify law enforcement officials.

If an investigation reveals that discrimination or harassment has occurred, the District will take immediate corrective action as warranted. Such action will be taken in accordance with applicable laws and regulations, as well as any and all relevant codes of conduct, District policies and administrative regulations, collective bargaining agreements, and/or third-party contracts.

#### **Knowingly Makes False Accusations**

Any employee or student who *knowingly* makes false accusations against another individual as to allegations of discrimination or harassment will face appropriate disciplinary action.

#### **Prohibition of Retaliatory Behavior**

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination and/or harassment. Complaints of retaliation may be directed to the Civil Rights Compliance Officer. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

Where appropriate, follow-up inquiries will be made to ensure that discrimination and/or harassment has not resumed and that those involved in the investigation have not suffered retaliation.

#### **Additional Provisions**

Regulations will be developed for reporting, investigating, and remedying allegations of discrimination and/or harassment.

In order to promote familiarity with issues pertaining to discrimination and harassment in the schools, and to help reduce incidents of prohibited conduct, the District will provide appropriate information and/or training to staff and students. As may be necessary, special training will be provided for individuals involved in the investigation of discrimination and/or harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and will be posted and/or published in appropriate locations and/or

school publications.

This policy should not be read to abrogate other District policies and/or regulations or the *District Code of Conduct* prohibiting other forms of unlawful discrimination, harassment, and/or inappropriate behavior within this District. It is the intention of the District that all such policies and/or regulations be read consistently to provide protection from unlawful discrimination and harassment. However, different treatment of any individual which has a legitimate, legal, and nondiscriminatory reason shall not be considered a violation of District policy.

### **SEXUAL HARASSMENT POLICY (STUDENTS) #7551**

The Board of Education affirms its commitment to provide an environment free from sex-based discrimination and sexual harassment, including sexual violence and intimidation. The Board, therefore, prohibits all forms of sexual harassment against students by other students, employees, school volunteers, and non-employees such as contractors and vendors, which occur on school grounds or at school-sponsored events, programs, or activities, including those that take place at locations off school premises.

#### **Sexual Harassment**

Sexual harassment is unwelcome conduct of a sexual nature. It includes unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. For the purposes of this policy, sexual harassment also includes sexual violence. Sexual violence refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent. Sexual violence includes, but is not limited to: rape, sexual assault, sexual battery, and sexual coercion.

Sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from students, District employees, or third parties such as visitors or school volunteers.

#### **Prohibited Conduct**

Sexual harassment can be verbal, non-verbal, or physical. Examples of such conduct may include, but are not limited to, the following:

- a) Verbal abuse or ridicule, including innuendoes, stories and jokes that are sexual in nature and/or gender related. This might include inappropriate sex-oriented comments on appearance, including dress or physical features.
- b) Direct or indirect threats or bribes for unwanted sexual activity.
- c) Asking or commenting about a person's sexual activities.
- d) Unwelcome and unwanted physical contact of a sexual nature including, but not limited to, physical acts such as assault, impeding or blocking movement, offensive touching, or any physical interference with normal work or movement.
- e) Displaying or distributing pornographic or other sexually explicit materials such as magazines, pictures, internet material, cartoons, etc.
- f) The use of profanity and/or other obscenities that are sexually suggestive or degrading in nature.
- g) Unwelcome staring, leering, or gesturing which is sexually suggestive in nature.
- h) Unwelcome and/or offensive public displays of sexual/physical affection.
- i) Clothing that reflects sexually obscene and/or sexually explicit messages, slogans, or pictures.
- j) Demanding sexual favors of a student, insinuating that refusal to acquiesce in such favors will adversely affect a student's grades, references, academic/scholastic placement, and/or participation in extracurricular activities.
- k) Engaging in sexual conduct with an individual who is unable to consent due to his/her age, use of drugs or alcohol, intellectual disability, or other disability.
- l) Any other unwelcome and unwanted sexually oriented and/or gender-based behavior which is sexually demeaning, belittling, intimidating, or perpetrates sexual stereotypes and attitudes.

#### **Investigation of Complaints and Grievances**

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any student who believes he/she has been a victim of sexual harassment in the school environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, should immediately report such alleged harassment. The District recognizes that sexual harassment is a sensitive issue and that students may choose to inform any trusted staff member of suspected discrimination or

harassment. Staff members who receive such complaints will immediately inform the Civil Rights Compliance Officer. Where appropriate, the Civil Rights Compliance Officer may seek the assistance of the relevant Dignity Act Coordinator in investigating, responding to, and remedying student complaints of discrimination and/or harassment. In the event that the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated an additional individual to serve in such capacity, or to the Superintendent.

The School District will act to promptly, thoroughly, and equitably investigate all complaints, whether verbal or written, of sexual harassment and will promptly take appropriate action to protect individuals from further sexual harassment. All such complaints will be handled in a manner consistent with the District's policies, procedures, and/or regulations regarding the investigation of discrimination and harassment complaints, including Policy #3420 -- Non-Discrimination and Anti-Harassment in the School District; and Administrative Regulation #3420R -- Non-Discrimination and Anti-Harassment in the School District.

Additional information regarding the District's discrimination and harassment complaint and grievance procedures, including but not limited to the designation of the Civil Rights Compliance Officer, knowingly making false accusations, and possible corrective actions, can be found in Policy #3420 -- Non-Discrimination and Anti-Harassment in the School District and Administrative Regulation #3420R -- Non-Discrimination and Anti-Harassment in the School District.

#### **Prohibition of Retaliatory Behavior**

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of sexual harassment. Complaints of retaliation may be directed to the Civil Rights Compliance Officer. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

Where appropriate, follow-up inquiries will be made to ensure that sexual harassment has not resumed and that all those involved in the investigation of sexual harassment have not suffered retaliation.

## REPORTING, INVESTIGATING, AND HANDLING OF DISCRIMINATION, HARASSMENT AND RETALIATION

Any student who believes he or she is a victim of discrimination, harassment and/or retaliation by any individual, including any student, teacher, or other employee of the District, who has knowledge of an incident(s) involving discrimination, harassment and/or retaliation of a student(s), must report all incident(s) of such conduct to the **District's designated Title IX Complaint Officers or, if not possible, to any other District administrator.** The Complaint Officers are also responsible for educating students and employees about this policy. All District employees must report any allegations of, or indications of, discrimination or harassment of which they are aware to the Complaint Officer immediately, but no later than five (5) school days. If an employee receives a complaint and it is not clear whether it involves discrimination or harassment, the employee shall report it to a Complaint Officer, who will determine whether the complaint is one to be handled pursuant to this policy. District employees who become aware of a potential complaint also must instruct students that they may file a complaint with a Complaint Officer. In the event that one Complaint Officer is the alleged offender, then the other Complaint Officer shall be contacted. In addition, in any case in which a complaint Officer deems it appropriate, he or she may appoint a designee to handle or assist with the handling of a complaint. In the remainder of this policy or its accompanying regulations any reference to the Complaint Officer also includes a designee.

Upon receipt of an informal/formal complaint, a Complaint Officer or a designee will conduct a **prompt** investigation of the charges. However, if a Complaint Officer has knowledge of or has reason to know of any alleged harassment, the District is obligated, even in the absence of a **formal** complaint, to consider and investigate such conduct promptly and thoroughly, **unless there are extenuating circumstances.**

Based upon the results of the District's investigation, immediate and corrective action will be taken, including but not limited to, discipline, training, or other remedial measures; transfer of students or employees may also be affected. Such action taken with respect to students may include, but is not limited to, warning, detention, in and out-of-school suspension, transfer to

alternative school, or other disciplinary action by the District, consistent with the requirements of applicable procedures of the Student Code of Conduct and the Education Law.

**Employees are hereby placed on notice that if an employee engages in acts which the District determines to be acts of discrimination, harassment or retaliation, such acts are outside of the course and scope of the employee's employment. Discipline of employees may include, but is not limited to warning, reprimand, fine, suspension and termination consistent with applicable laws and collective bargaining agreements. Such conduct may result in the employee having to obtain his or her own legal counsel, result in a money judgment against the employee personally, or the filing of criminal charges.**

The Board prohibits any retaliatory behavior directed against complainants and/or witnesses. Any such retaliation may result in discipline up to and including discharge. Complainants or witnesses experiencing retaliation from anyone should report it to a Complaint Officer immediately.

The District encourages the filing of good faith complaints. However, the filing of knowingly false complaints is prohibited. A student who knowingly makes a false complaint of any form against any other person shall be subject to discipline, including, but not limited to, a warning, detention, in or out of school suspension, transfer to an alternative school, or other disciplinary action by the District, consistent with the requirements of applicable procedures of the Student Code of Conduct and the Education Law.

A copy of this policy and its accompanying regulation shall be posted in appropriate places and be made available to all students.

## ANTI-HARASSMENT REGULATION

A student who feels he/she is being harassed by peers or by a staff member, or is aware of the harassment of another student(s), shall report such incidents to a building administrator, counselor, teacher, school psychologist, school social worker, teacher aide, etc.

Any staff member receiving a student's report, a parent's report, or observing an incident of alleged harassment will examine the circumstances surrounding the alleged incident. If the receiving staff determines that harassment has occurred, they will take steps to end harassment. In the event that the nature and magnitude of the incident(s) warrant further follow-up measures,

staff/faculty members will report charges of harassment to the building principal or his/her designee. The building principal or his/her designee will initiate a further investigation of the harassment charges and implement follow-up measures, which he/she believes are appropriate. Should the investigation of the harassment incident(s) reveal that disciplinary action is warranted, it will be taken into accordance with the policies and procedures adopted by the Board of Education.

**IMPLEMENTATION** – Families of all currently enrolled students will be provided with a copy of the student anti-harassment regulation. Thereafter, a copy of the student anti-harassment regulation shall be given to each family on initial enrollment in the school district of Iroquois. High school students will provide written evidence of receiving the student handbook including the student anti-harassment regulation and that they have been advised to review its contents.

Parents shall be informed annually of the existence of this regulation in such manner as directed by the Board of Education.

## BULLYING POLICY - #7552 (PEER ABUSE IN THE SCHOOLS)

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the District Code of Conduct for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal

belongings);

b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and  
c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Bullying may also occur as various forms of harassment and/or hazing of students by other students (including "pledging" and/or a student's initiation into or affiliation with a school or student related organization or team).

The District also prohibits "Internet bullying" (also referred to as "cyber-bullying") Including the use of instant messaging, email, web sites, blogs, cell phone, gaming systems, chat rooms, and text messaging when such use is subject but not limited to being on school grounds and/or at school functions by student, teachers, other school personnel and visitors. Cyber-bullying is a form of electronic aggression and that both it and sexting are inappropriate and will not be tolerated on school grounds or at school-sponsored events or functions, using either school or personal information technology equipment. If said actions interfere with the operation of the school; or infringe upon the general health, safety and welfare of District student or employees. Disciplinary or referral actions can occur.

The NYSED VADIT Glossary of Terms defines Intimidation, Harassment, Menacing and Bullying (IHMB) as "[t]hreatening, stalking or seeking to coerce or compel a person to do something; intentionally placing or attempting to place another person in fear of imminent physical injury; or engaging in verbal or physical conduct that threatens another with harm, including intimidation through the use of epithets or slurs involving race, ethnicity, national origin, religion, religious practices, gender, sexual orientation, age or disability that substantially disrupts the education process"( 8 NYCRR § 120.2[gg][1][vi][j]).

Cyber bullying is "the repeated use of information technology, including e-mail, instant message, blogs, chat rooms, pagers, cell phones, and gaming systems, to deliberately harass, threaten or intimidate others." Cyber bullying, unlike physical bullying, does not provide an

option for its victims to walk away.

Cyber bullying is a form of electronic aggression and that both it and sexting are inappropriate and will not be tolerated on school grounds or at school-sponsored events or functions, using either school or personal information technology equipment.

Disciplinary or referral actions include the following:

- Referral to counseling.
- Teacher removal (formal 3214 hearing).
- Suspension from class or activities; in-school equivalent of one full day; activities or transportation for five (5) consecutive school days.
- Out of school suspension; equivalent of one full day.
- Transfer to alternative setting; or
- Transfer to law enforcement.

However, it is important to note that a single negative act as enumerated above may also constitute "bullying" (if not more serious misconduct) based upon the particular circumstances such as the seriousness of the act and/or the intent of the actor.

Any student who believes that he/she is being subjected to bullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to any staff member or the building principal. The staff member/building principal to whom the report is made (or the staff member/building principal who witnesses bullying behavior) shall investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of

allegations of bullying have not suffered retaliation.

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students, and parents. Disciplinary sanctions for violation of this policy shall be outlined in the District Code of Conduct as enumerated above and may also be incorporated in staff and student handbooks.

## COMPUTER AND INTERNET USAGE

The school will remove any material from school issued devices that is not conducive to the educational mission or that is deemed inappropriate for students. If circumstances warrant it, the student computer will be re-imaged to achieve a safe and secure environment. The school will limit access to internet sites that it deems objectionable. Students, faculty and staff will not install unauthorized software, download unauthorized files on school computers, or try to circumvent the school filtering system by, but not limited to, the use of a Virtual Private Network (VPN). Responsible use of school devices also extends to the handling and care of the device. The computers are to be used for educational purposes only or as directed by the teacher and/or staff.

Students, faculty and staff are responsible for good behavior while using school devices and/or the network. The same rules that apply with regard to common courtesy and respect for people and property also apply

with regard to use of the school computer network and the Internet. The district has the right to review (or monitor) all activities. E-mail correspondence and material created by students on school computers are considered property of the district. In addition to the aforementioned items, all use of computers, tablets, the network, and/or internet must be done in accordance with the Code of Conduct, the Acceptable Use Policy (AUP), and 1:1 Agreement. Students that are in violation of these guidelines will receive a warning, followed by a detention. A suspension will occur for any further violations. Please see the District Code of Conduct for a more comprehensive overview of technology violations and disciplinary actions.

## **VII. Student Use of Electronic Communication Devices**

Students are prohibited from using or having on or in an operational mode any paging device, mobile telephone, cellular telephone, laser pointer or pen or any other type of telecommunications or imaging device during instructional time, except as expressly permitted in connection with authorized use in classrooms. While students are permitted to possess such devices during the school day, they are prohibited from using them in any manner which invades the privacy of students, employees, volunteers, or visitors. Students are not permitted to use any form of information technology, including their own personal electronic devices, to intimidate, harass or threaten others. This type of harassment is generally referred to as cyber bullying. If a student violates this prohibition, then they are subject to discipline under this provision and/or any other provision in the District *Code of Conduct* that may be applicable to the circumstances involved. Any electronic device that is permitted on school property is encouraged to be kept on the person and in a concealed manner.

Teachers and all other District personnel should exemplify and reinforce acceptable student dress and behavior (including possession/use of electronic devices) and help students develop an understanding of appropriate appearance and conduct in the school setting.

## **Reporting Violations of the District Code of Conduct**

All students are expected to promptly report violations of the Code of Conduct to a teacher, guidance counselor, the building principal or his/her designee. Any student observing a student possessing a weapon, alcohol or illegal substance on school property or at a school function shall report this information immediately to a teacher, the building principal, the principal's designee or to the superintendent. An anonymous Helpline has been established for reporting if a student may be harmful to himself or others (652-3000, ext. 8477).

All district staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair and lawful manner. District staff who are not authorized to impose disciplinary sanctions are expected to promptly report violations of the Code of Conduct to their supervisor, who shall in turn, impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

Any weapon, alcohol or illegal substance found shall be confiscated immediately, if possible, followed by notification to the parent of the student involved and the appropriate disciplinary sanction if warranted, which may include permanent suspension and referral for prosecution.

The building principal or his/her designee must notify the appropriate local law enforcement agency of those code violations that constitute a crime and substantially affect the order or security of a school as soon as practical, but in no event, later than the close of business the day the principal or his/her designee learns of the violation. The notification may be made by telephone, followed by a letter mailed on same day as the telephone call is made. The notification must identify the student and explain the conduct that violated the Code of Conduct and constituted a crime.

## **Disciplinary Penalties, Procedures and Referrals**

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial. School personnel who interact with students are expected to use disciplinary action only when necessary and to place emphasis on the students' ability to grow in self-discipline.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

- The student's age.
- The nature of the offense and the circumstances which led to the offense.
- The student's prior disciplinary record.
- The effectiveness of other forms of discipline.
- Information from parents, teachers and/or others, as appropriate.
- Other extenuating circumstances.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this Code of Conduct for disciplining students with a disability or presumed to have a disability. A student identified as having a disability shall not be disciplined for behavior related to his/her disability.

## **Penalties**

Students who are found to have violated the district's Code of Conduct may be subject to the following penalties, either alone or in combination. The school personnel identified after each penalty are authorized to impose that penalty, consistent with the student's right to due process.

1. Oral warning or verbal reprimand – any member of the district staff
2. Written warning – bus drivers, hall and lunch monitors, coaches, guidance counselors, teachers, assistant principal, principal, superintendent
3. Written notification to parent – bus drivers, hall and lunch monitors, coaches, guidance counselors, teachers, assistant principal, principal, superintendent
4. Detention – teachers, assistant principal, principal, superintendent
5. Suspension from transportation – director of transportation, assistant principal, principal, superintendent
6. Suspension from athletic participation – coaches, athletic director, assistant principal, principal, superintendent
7. Suspension from social or extracurricular activities – activity director, assistant principal, principal, superintendent
8. Suspension of other privileges – assistant principal, principal, superintendent
9. In-school suspension – assistant principal, principal, superintendent

10. Short-term (five days or less) suspension from school – principal, superintendent, board of education
11. Long-term suspension from school – (greater than 5 days) superintendent, board of education
12. Permanent suspension from school – superintendent, board of education.

## Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases, regardless of the penalty imposed, the school personnel authorized to impose the penalty must inform the student of the alleged misconduct and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts to the school personnel imposing the disciplinary penalty in connection with the imposition of the penalty.

Students who are to be given penalties other than an oral warning, written warning or written notification to their parents are entitled to additional rights before the penalty is imposed. These additional rights are explained below.

**1. Detention** – Teachers, principals and the superintendent may use detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a penalty only after the student's parent has been notified to confirm that the parents have had the opportunity to discuss the situation and penalty with the building administrator and to ensure the student has to the penalty and the student has appropriate transportation home following detention.

**2. Suspension from transportation** – If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's attention. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal or the superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his/her child gets to/from school safely. Should the suspension from transportation amount to a suspension from attendance, the district will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal

conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

**3. Suspension from athletic participation, extra-curricular activities, and other privileges** – A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the suspension to discuss the conduct and the penalty involved.

**4. In-school suspension** – The board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the board authorizes building principals and the superintendent to place students who would otherwise be suspended from school as the result of a Code of Conduct violation in 'in-school suspension'. The in-school suspension teacher will be a certified teacher. A student who is serving in-school suspension will be provided with assignments from his/her classroom teacher. Those assignments will be completed under the supervision of the in-school suspension teacher.

A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the district official imposing the in-school suspension to discuss the conduct and the penalty involved.

**5. Teacher disciplinary removal of disruptive students** – A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his/her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "timeout" in an elementary classroom or in an administrator's office; (2) sending an elementary student into the hallway briefly; (3) sending a student to the principal's office for the remainder of the class time only; or (4) sending a student to a guidance counselor or other district staff member for counseling. Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code.

On occasion, a student's behavior may become disruptive. For purposes of this Code of Conduct, a

disruptive student is a student who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom. A substantial disruption of the educational process or substantial interference with a teacher's authority occurs when a student demonstrates a persistent unwillingness to comply with the teacher's instructions or repeatedly violates the teacher's classroom behavior rules.

A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher *only*.

If the disruptive student does not pose a danger or on-going threat of disruption to the academic process, the teacher must provide the student with an explanation for why he/she is being removed and an opportunity to explain his/her version of the relevant events before the student is removed. Only after the informal discussion may a teacher remove a student from class.

If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately. The teacher must, however, explain to the student why he/she was removed from the classroom and give the student a chance to present his/her version of the relevant events within 24 hours.

The teacher must complete a district-established disciplinary removal form and meet with the principal or his/her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. If the principal or his/her designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.

Within 24 hours after the student's removal, the principal or another district administrator designated by the principal, must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he/she has the right, upon request, to meet informally with the principal or his/her designee to discuss the reasons for the removal.

The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number (s) for the purposes of contacting parents.

The principal may require the teacher who ordered the removal to attend the informal conference.

If at the informal meeting the student denies the charges, the principal or his/her designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.

The principal or his/her designee may overturn the removal of the student from class if the principal finds any one of the following:

1. The charges against the student are not supported by substantial evidence.
2. The student's removal is otherwise in violation of law, including the district's Code of Conduct.
3. The conduct warrants suspension from school pursuant to Education Law 3214 and a suspension will be imposed.

The principal or his/her designee may overturn a removal at any point between receiving the referral form issued by the teacher and the close of business on the day following the 48-hour period for the informal conference if a conference is requested. No student removed from the classroom by the classroom teacher will be permitted to return to the classroom until the principal makes a final determination, or the period of removal expires, whichever is less.

Any disruptive student removed from the classroom by the classroom teacher shall be offered continued educational programming and activities until he/she is permitted to return to the classroom.

Each teacher must keep a complete log (on a district provided form) for all cases of removal of a student from his/her class. The principal must keep a log of all removals of students from class.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the chairperson of the Committee on Special Education that the removal will not violate the student's rights under state or federal law or regulation.

**6. Suspension from school-** Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent, or disruptive, or whose conduct otherwise endangers the safety, morals, health, or welfare of others.

The board retains its authority to suspend students, but places primary responsibility for the suspension of

students with the superintendent and the building principals.

Any staff member may recommend to the superintendent or the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the superintendent for a violation of the Code of Conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.

The superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.

**a. Short-term (5 days or less) suspension from school -**

When the superintendent or principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214 (3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting the parents.

The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents. At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as established by the principal.

The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process. If the student does

pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.

After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so. The superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the superintendent's decision, they must file a written appeal to the board of education with the district clerk within 10 business days of the date of the superintendent's decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

**b. Long-term (more than 5 days) suspension from school -** When the superintendent or building principal determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing. At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.

The superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her. A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline to the superintendent. The report of the hearing officer shall be advisory only, and the superintendent may accept all or any part thereof.

An appeal of the decision of the superintendent may be made to the board that will make its decision based solely upon the record before it. All appeals to the board must be in writing and submitted to the district clerk within 10 business days of the date of the superintendent's decision, unless the parents can show that extraordinary

circumstances precluded them from doing so. The board may adopt in whole or in part the decision of the superintendent. Final decisions of the board may be appealed to the Commissioner within 30 days of the decision.

**c. Permanent suspension**-Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property, transportation vehicle or attending a school function.

### **Minimum Periods of Suspension**

1. Students who bring a weapon to school

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property, will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The superintendent has the authority to modify the one-year suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the following:

- a. The student's age.
- b. The student's grade in school.
- c. The student's prior disciplinary record.
- d. The superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents, teachers and/or others.
- f. Other extenuating circumstances.
- g. A student with a disability may be suspended only in accordance with the requirements of state and federal law.

2. Students who commit violent acts other than bringing a weapon to school

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given

to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interferes with the teacher's authority over the classroom.

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least five days. For purposes of this Code of Conduct, "repeatedly is substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214 (3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

### **Referrals**

#### **Counseling**

The Pupil Personnel Services Office shall handle all referrals of students to counseling.

#### **PINS Petitions**

The district may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

1. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.

2. Engaging in an ongoing or continual course of conduct which makes the student ungovernable or habitually disobedient and beyond the lawful control of the school.
3. Knowingly and unlawfully possesses inhalants, marijuana or any other illegal substances in violation of Penal Law §221.05. A single violation of §221.05 will be a sufficient basis for filing a PINS petition.

### **Juvenile Delinquents and Juvenile Offenders**

The superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The Superintendent is required to refer students, age 16 and older, or any student 14 or 15 years old who qualifies for juvenile offender status, to the appropriate law enforcement authorities.

### **Alternative Instruction**

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the district will take immediate\* steps to provide alternative means of instruction for the student. (\*"Immediately" does not mean instantaneously, but it does mean that the district should act promptly, with due regard for the nature and circumstances of the particular case.)

### **Discipline of Students with Disabilities**

The board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The board also recognizes that students with disabilities enjoy certain procedural protections whenever school authorities intend to impose discipline upon them. The board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This Code of Conduct affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state law and regulations.

### **Authorized Suspensions or Removals of Students with Disabilities**

For purposes of this section of the Code of Conduct, the following definitions apply:

- A "suspension" means a suspension pursuant to Education Law §3214.
- A "removal" means a removal for disciplinary reasons from the student's current educational placement other than a suspension and change in placement to an interim alternative educational setting (IAES) ordered by an impartial hearing officer because the student poses a risk of harm to himself or herself or others.
- An "IAES" means a temporary educational placement for a period of up to 45 days, other than the student's current placement at the time the behavior precipitating the IAES placement occurred, that enables the student to continue to progress in the general curriculum, although in another setting, to continue to receive those services and modifications, including those described on the student's current individualized education program (IEP), that will enable the student to meet the goals set out in such IEP, and include services and modifications to address the behavior which precipitated the IAES placement that are designed to prevent the behavior from recurring.

School personnel may order the suspension or removal of a *student with a disability* from his or her current educational placement as follows:

- a. The board, the district (BOCES) superintendent of schools or a building principal may order the placement of a student with a disability into an IAES, another setting or suspension for a period not to exceed five consecutive school days and not to exceed the amount of time a non-disabled student would be subject to suspension for the same behavior.
- b. The superintendent may order the placement of a student with a disability into an IAES, another setting or suspension for up to 10 consecutive school days, inclusive of any period in which the student has been suspended or removed under subparagraph (a) above for the same behavior, if the superintendent determines that the student has engaged in behavior that warrants a

suspension and the suspension or removal does not exceed the amount of time non-disabled students would be subject to suspension for the same behavior.

- c. The superintendent may order additional suspensions for not more than 10 consecutive school days in the same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement.
- d. The superintendent may order the placement of a student with a disability in an IAES to be determined by the committee on special education (CSE), for the same amount of time that a student without a disability would be subject to discipline, but not more than 45 days, if the student carries or possesses a weapon to school or to school function, or the student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function.

"Weapon" means the same as "dangerous weapon" under 18 U.S.C. §930 (g) (w) which includes "a weapon, device inanimate that is used for, or is readily capable of causing death or serious bodily injury, except...[for] a pocketknife with a blade of less than 2 ½ inches in length."

"Controlled substance" means a drug or other substance identified in certain provisions of the federal Controlled Substances Act specified in both federal and state law and regulations applicable to this policy.

"Illegal drugs" means a controlled substance except for those legally possessed or used under the supervision of a licensed health care professional or that is legally possessed or used under any other authority under the Controlled Substances Act or any other federal law.

Subject to specified conditions required by both federal and state law and regulations, an impartial hearing officer may order the placement of a student with a disability in an IAES setting for up to 45 days at a time, if maintaining the student in his or her current educational placement poses a risk of harm to the student or others.

### **Change of Placement Rule**

A disciplinary change in placement means a suspension or removal from a student's current educational placement that is either:

- for more than 10 consecutive school days; or
- for a period of 10 consecutive school days or less if the student is subjected to a series of suspensions or removals that constitute a pattern because they cumulate to more than 10 school days in a school year and because of such factors as the length of each suspension or removal, the total amount of time the

student is removed and the proximity of the suspensions or removals to one another.

School personnel may not suspend or remove a student with a disability if imposition of the suspension or removal would result in a disciplinary change in placement based on a pattern of suspension or removal. However, the district may impose a suspension or removal, which would otherwise result in a disciplinary change in placement, based on a pattern of suspensions or removals if the CSE has determined that the behavior was not a manifestation of the student's disability, or the student is placed in an IAES for behavior involving weapons, illegal drugs or controlled substances.

### **Special Rules Regarding the Suspension or Removal of Students with Disabilities**

The district's Committee on Special Education shall:

- a. Conduct a functional behavioral assessment(s) to determine why a student engages in a particular behavior and develop or review a behavioral intervention plan(s) whenever the district is first suspending or removing a student with a disability for more than 10 school days in a school year or imposing a suspension or removal that constitutes a disciplinary change in placement, including a change in placement to an IAES for misconduct involving weapons, illegal drugs or controlled substances.

If subsequently, a student with a disability who has a behavioral intervention plan and who has been suspended or removed from his or her current educational placement for more than 10 school days in a school year is subjected to a suspension or removal that does not constitute a disciplinary change in placement, the members of the CSE shall review the behavioral intervention plan and its implementation to determine if modifications are necessary. If one or more members of the CSE believe that modifications are needed, the school district shall convene a meeting of the CSE to modify such plan and its implementation, to the extent the committee determines necessary.

- b. Conduct a manifestation determination review of the relationship between the student's disability and the behavior subject to disciplinary action whenever a decision is made to place a student in an IAES either for misconduct involving weapons, illegal drugs, or controlled substances or because maintaining the student in his current educational setting poses a risk of harm to the student or

others; or a decision is made to impose a suspension that constitutes a disciplinary change in placement.

The parents of a student who is facing disciplinary action, but who has not been determined to be eligible for services under IDEA and Article 89 at the time of misconduct, shall have the right to invoke applicable procedural safeguards set forth in federal and state law and regulations if, in accordance with federal and state statutory and regulatory criteria, the school district is deemed to have had knowledge that their child was a student with a disability before the behavior precipitating disciplinary action occurred. If the district is deemed to have had such knowledge, the student will be considered a student presumed to have a disability for discipline purposes.

The superintendent, building principal or other school official imposing a suspension or removal shall be responsible for determining whether the student is a student presumed to have a disability.

A student will not be considered a student presumed to have a disability for discipline purposes if, upon receipt of information supporting a claim that the district had knowledge the student was a student with a disability, the district either: conducted an individual evaluation and determined that the student is not a student with a disability, or determined that an evaluation was not necessary and provided notice to the parents of such determination, in the manner required by applicable law and regulations.

If there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other non-disabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made while such non-disabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted and completed in the manner prescribed by applicable federal and state law and regulations. Until the expedited evaluation is completed, the non-disabled student who is not a student presumed to have a disability for discipline purposes shall remain in the educational placement determined by the district, which can include suspension.

The district shall provide parents with notice of disciplinary removal no later than the date on which a decision is made to change the placement of a student with a disability to an IAES for either misconduct involving weapons, illegal drugs or controlled substances or because maintaining the student in his/her current educational setting poses a risk of harm to the

student or other; or a decision is made to impose a suspension or removal that constitutes a disciplinary change in placement. The procedural safeguards notice prescribed by the Commissioner shall accompany the notice of disciplinary removal.

The parents of a student with a disability subject to a suspension of five consecutive school days or less shall be provided with the same opportunity for an informal conference available to parents of non-disabled students under the Education Law.

Superintendent hearings on disciplinary charges against students with disabilities subject to a suspension of more than five school days shall be bifurcated into a guilt phase and a penalty phase in accordance with the procedures set forth in the Commissioner's regulations incorporated into this code.

The removal of a student with a disability other than a suspension or placement in an IAES shall be conducted in accordance with the due process procedures applicable to such removals of non-disabled students, except that school personnel may not impose such removal for more than 10 consecutive days or for a period that would result in a disciplinary change in placement, unless the CSE has determined that the behavior is not a manifestation of the student's disability.

During any period of suspension or removal, including placement in an IAES, students with disabilities shall be provided services as required by the Commissioner's regulations incorporated into this code.

### **Expedited Due Process Hearings**

An expedited due process hearing shall be conducted in the manner specified by the Commissioner's regulations incorporated into this code, if:

1. The district requests such a hearing to obtain an order of an impartial hearing officer placing a student with a disability in an IAES where school personnel maintain that it is dangerous for the student to be in his or her current educational placement, or during the pendency of due process hearings where school personnel maintain that it is dangerous for the student to be in his or her current educational placement during such proceedings.

2. The parent requests such a hearing from a determination that the student's behavior was not a manifestation of the student's disability, or relating to any decision regarding placement, including but not limited to any decision to place the student in an IAES.

- During the pendency of an expedited due process hearing or appeal regarding the placement of a student in an IAES for behavior involving weapons, illegal drugs or controlled substances, or on grounds of dangerousness, or regarding a determination that the behavior is not a manifestation of the student's disability for a student who has been placed in an IAES, the student shall remain in the IAES pending the decision of the impartial hearing officer or until expiration of the IAES placement, whichever occurs first, unless the parents and the district agree otherwise.
- If school personnel propose to change the student's placement after expiration of an IAES placement, during the pendency of any proceeding to challenge the proposed change in placement, the student shall remain in the placement prior to removal to the IAES, except where the student is again placed in an IAES.

An expedited due process hearing shall be completed within 15 business days of receipt of the request for a hearing. Although the impartial hearing officer may grant specific extensions of such time period, he or she must mail a written decision to the district and the parents within five business days after the last hearing date, and in no event later than 45 calendar days after receipt of the request for a hearing, without exceptions or extensions.

### **Referral to Law Enforcement and Judicial Authorities**

In accordance with the provisions of IDEA and its implementing regulations:

1. The district may report a crime committed by a child with a disability to appropriate authorities, and such action will not constitute a change of the student's placement.
2. The superintendent shall ensure that copies of the special education and disciplinary records of a student with disabilities are transmitted for consideration to the appropriate authorities to whom a crime is reported.
3. All school districts must suspend a student who brings or possesses a firearm at school for a period of not less than one calendar year. The superintendent of schools, district superintendent of schools or community superintendent may modify, in writing, the suspension requirement on a case-by-case basis. See Appeal of R.S., 38 Educ. Dept. Rep. 419 (1998). A superintendent's determination may be appealed to the school board and the

commissioner of education (20 USC § 7151(b)(1); § 3214(3)(d)).

All school districts must have a policy which requires superintendents to refer students under the age of 16 who have been determined to have brought a firearm to school to the county attorney for a juvenile delinquency proceeding, and students 16 years of age or older to the appropriate law enforcement officials (§ 3214(3)(d); 20 USC § 7151(h)(i)).

### **Corporal Punishment**

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student.

**Corporal punishment of any student by any district employee is strictly forbidden.**

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

- Protect oneself, another student, teacher, or any person from physical injury.
- Protect the property of the school or others.
- Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school district functions, powers, and duties, if that student has refused to refrain from further disruptive acts.
- The district will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

### **Student Searches and Interrogations**

The board of education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the district Code of Conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parents before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the board authorizes the superintendent, building principals, the school nurse and district security officials to conduct searches of students and their

belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the district Code of Conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than the district employees, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. District employees will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate.

Before searching a student or the student's belongings, the authorized school official should attempt to get the student to admit that he or she possesses physical evidence that they violated the law or the district code, or get the student to voluntarily consent to the search. Searches will be limited to the extent necessary to locate the evidence sought.

Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

### **Student Locker, Desks, and other School Storage Places**

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks, and other school storage places. **Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them.** This means that, student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

### **Strip Searches**

A strip search is highly intrusive. Under no circumstances will the Iroquois Central School District conduct a strip search.

### **Documentation of Searches**

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
4. Type and scope of search.
5. Person conducting search and his or her title and position.
6. Witnesses, if any, to the search.
7. Time and location of search.
8. Results of search (that is, what item(s) were found).
9. Disposition of items found.
10. Time, manner and results of parental notification.

The building principal or the principal's designee shall be responsible for the custody, control, and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the item is turned over to the police. The principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

### **Police Involvement in Searches and Interrogations of Students**

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving a student only if they have:

- A search or an arrest warrant; or
- Probable cause to believe a crime has been committed on school property or at a school function; or been invited by school officials.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same right they have outside the school. This means:

- They must be informed of their legal rights.
- They may remain silent if they so desire.
- They may request the presence of an attorney.

**NOTE: In the event that there is a School Resource Officer assigned to the district, he/she may be involved in all aspects of searches, interrogations, and investigations.**

#### **Child Protective Services Investigations**

Consistent with the district's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the district will cooperate with local child protective services workers who wish to conduct interviews of students on school property relating to allegations of suspected child abuse, and/or neglect, or custody investigations.

All requests by child protective services to interview a student on school property shall be made directly to the building principal or his or her designee. The principal or his or her designee shall set the time and place of the interview. The principal or designee shall decide if it is necessary and appropriate for a school official to be present during the interview, depending on the age of the student being interviewed and the nature of the allegations. If the nature of the allegations is such that it may be necessary for the student to remove any of his or her clothing in order for the child protective services worker to verify the allegations, the school nurse or other district medical personnel must be present during that portion of the interview. No student may be required to remove his or her clothing in front of a child protective services worker or school district official of the opposite sex.

A child protective services worker may not remove a student from school property without a court order, unless

the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

#### **Visitors to the Schools**

The board encourages parents and other district citizens to visit the district's schools and classrooms to observe the work of students, teachers, and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

- Anyone who is not a regular staff member or student of the school will be considered a visitor.
- All visitors to the school must report to the office of the principal upon arrival at the school. There they will be required to sign the visitor's register and will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the principal's office before leaving the building. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register after regular attendance hours.
- Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum.
- Teachers are expected not to take class time to discuss individual matters with visitors.
- Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
- All visitors are expected to abide by the rules for public conduct on school property contained in this Code of Conduct.

#### **Public Conduct on School Property**

The district is committed to providing an orderly, respectful environment that is conducive to learning. To

create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. ### TRANSPORTATION PROGRAM

#### Ext. 8002

#### Policy #5710

It is the intent of the Board of Education to comply with the letter and spirit of the New York State Education Law; with the regulations of the Department of Motor Vehicles and of the Department of transportation and with the Commissioner of Education's regulations and decisions pertinent to student transportation, and these shall govern any questions not covered by specific declaration of policy herein.

While regular transportation is authorized for students residing in the Iroquois Central School District #1, this does not imply door-to-door pickup and return. It is the responsibility of the parent to ensure children are at the designated pickup point. The Transportation Supervisor will establish bus routes according to the following criteria:

a) Consideration shall be given to establishing bus routes that provide for the safety of the students within existing limitations of traffic conditions, weather, visibility and bus operation. (Transportation will not be provided on dead-end roads and end-of-route runs where turnarounds do not exist or are inadequately maintained.)

b) On dead-end roads, end-of-route runs, road spurs, etc., students in Grades 1-5 who live beyond .2 of a mile from the street corner or designated stop shall receive bus service.

c) On dead-end roads, end-of-route runs, road spurs, etc., students in Grades 6-12 who live beyond .35 of a mile from the street corner or designated stop shall receive bus service.

d) Bus routes may be modified to accommodate kindergartens, first through third grades who are alone at the bus stop, and students with handicapping conditions. Modification will be in accordance with the appropriate administrative procedure.

e) Contracts with a private carrier will be granted on the basis of competitive bidding, except where bidding is not required by law or regulation.

f) In the event the Superintendent of Schools or his/her designee declare Iroquois Central School not in session due to inclement weather or other emergency situation, those students assigned an out-of district placement will not be provided with transportation.

g) In the event the Superintendent of schools or his/her designee declare Iroquois Central School not in session due to a scheduled student non-attendance day (conference day), those students assigned an out-of-district placement will be provided with transportation.

h) Transportation to non-public schools will be provided only on those days when Iroquois Central Schools are in session, including those days when Teacher Conferences or Parent/Teacher conferences are being held. The Superintendent or their designee shall be entitled to make exceptions to this for Students with Disabilities upon the review of the request.

### Student Conduct & Safety

School buses are valuable school property, purchased and maintained at taxpayer expense. Students should exhibit respectful behavior on buses that are provided for their comfort and convenience. While being transported, students are subject to the same rules and regulations as when in school buildings or on school grounds.

The bus driver is responsible for the safe operation of the bus and has complete charge of pupils while they are entering, riding and leaving the bus. Pupils are expected to conduct themselves so as not to distract the driver.

Student misconduct will result in disciplinary action being taken, including possible suspension of riding privileges or suspension from school. Parents are reminded that the legal responsibility for transporting children to school rests primarily with them.

Defacing or damaging bus seats and other equipment will result in disciplinary action and payment of charges.

The following examples of student behavior will not be permitted. (List is not all inclusive).

- Throwing of articles inside or outside the bus.
- Pushing, shoving or fighting.
- Hanging out the windows.
- Possession or use of alcoholic beverages, controlled substances, tobacco products or weapons.
- Standing in front of the white line.
- Acts of vandalism.
- Spitting.
- Interference with the bus driver's ability to safely operate the bus.
- Failure to obey the bus driver, inappropriate language, insubordination.
- Standing while the bus is in motion when a seat is available.

At the first available opportunity, the bus driver will advise the Supervisor of Transportation (or Head Bus Driver) of behavioral problems and may identify the students involved. The supervisor is to notify the Principal (or Assistant Principal) of the situation and the action taken by the driver as soon as possible. The bus driver's action may include:

1. Stopping the bus on the side of the road.
2. Assigning student(s) to a specific seat.
3. Advising the student that his/her transportation may be denied.
4. Radio the bus garage that the loaded bus will be returning to the school (or bus garage).
5. Radio the bus garage for assistance with the problem or medical emergency.

Upon #4 or #5 above, the Supervisor will contact the principal, or call 911 for a medical emergency, and provide instructions for the driver on how to proceed. If the problem is disciplinary and the Principal is not available, the Supervisor will meet the bus at the garage or proceed to the bus location if appropriate. All above-mentioned supervisory personnel that are present will attempt to identify and remove the disruptive student(s). Those students not involved will be transported home so as not to punish all for the actions of a few.

The Principal will review Bus Incident Reports and will confer with the student(s) involved and may confer with parents, the bus driver, the Transportation Supervisor and the Head Bus Driver. Upon notification of a behavioral problem, the Principal, or his/her delegated representative, will determine the seriousness of the infraction. In attempting to correct the situation, the principal will follow the code of conduct for their building.

The Supervisor of Transportation is to conduct an in-service meeting on safety practices prior to the opening of each school year. New drivers and substitutes are to

receive instruction and be evaluated prior to driving a bus with student occupants.

Each year, administrators, bus drivers, teachers, students and parents will receive a review of the rules and regulations governing safety and conduct of students while being transported.

The Superintendent delegates the authority to authorize adults to ride school buses to the Principals and the Supervisor of Transportation.

### Policy #5720

#### Transportation to/from Child Care and Babysitting

Section #3635 of the State Education Law states that a Board of Education may limit transportation to/from child care locations within the attendance zone of the school the child attends. The law also states that a Board of Education may limit the transportation to/from licensed child care locations (Pursuant to Section #390 of the Social Services Law), anywhere within the district. Accordingly: A public or private school student may be picked up and/or dropped off at a day care location anywhere within the

attendance zone of the public school where the student resides with the following requirements:

- a. Request forms must be completed and returned by parents to the Director of Transportation by July 1 of each year preceding the year service is requested for.
- b. Allow at least one week and wait for confirmation from the School District before permitting the student to get picked up or dropped off from any place other than his or her residence.
- c. Pick-up and drop-off points must be consistent (the same five days a week). No exceptions.
- d. No transfer of buses will be allowed.
- e. No new stops will be added.
- f. No bus route other than the one originally designated will be established for the student.

### **Bus & Highway Safety**

Regular instruction is given to all students in bus and highway safety three times during the school year. Safety lessons include information on bus rules, emergency equipment, exits, vehicle securement, seat belts, and safe loading and unloading. Parents are encouraged to review the following safety rules with their children:

- Leave home early enough to arrive at your bus stop on time. Wait for your bus in a safe place. Be alert to traffic and stay away from strangers.
- Enter your bus in an orderly manner and take your seat.
- Follow the instructions of your school bus driver.
- Remain in your seat while the bus is in motion.
- Keep your head and arms inside the bus at all times.
- No eating or drinking on the bus.
- Keep aisles clear at all times. Keep your things together in a bag, such as a backpack.
- Remain quiet and orderly.
- Be courteous to your bus driver and passengers.
- Be alert to traffic when leaving the bus.

### **Carrying Objects on a School Bus**

#### **Restrictions include:**

- No loose (unsecured) object is permitted.
- Students must be able to hold object on the lap or between their legs without interfering with the safety or comfort of fellow passengers.
- Object may not take up a needed seat.
- Object may not block an aisle or emergency exit.
- No object is permitted on a school bus that may cause injury to a passenger or the driver.

- No animal is permitted on a school bus.

Musical instruments allowed are: Piccolo, Flute, Alto And Bass Clarinet, Oboe, Alto Saxophone, Tenor Saxophone, Trumpet, Trombone, Bassoon, Baritone, French Horn (Only with special permission from the Transportation Department), Violin and Viola. No other instruments may be carried on the school bus by the student.

### **Exam Buses**

Exam buses are scheduled for January and June Regents Exams. Exam buses are not routed for home delivery. Therefore, students who choose to utilize this service may be required to walk a substantial distance from the bus stop to their home.

### **Reminder to Parents**

All kindergarten students should wear a tag with their name and school they attend for the first two weeks of school. Students should carry their belongings contained in some way to/from school. This will reduce the possibility of the child dropping objects.

**For K-4 students, each elementary school bus driver has been directed to only allow your child to depart the bus if a parent or designee (another age appropriate sibling, relative) is at the bus stop or can be seen by the driver. Our intent is to be assured that your child is safe and not returning to an empty house.**

Traffic on narrow rural roads makes bicycle riding extremely hazardous. In view of the number of tragic accidents in our community over the years, school authorities cannot support the riding of bicycles to and from school. Parents are urged to support regulations not permitting the riding of bicycles to and from school.

There are four roads in the district which students in grades K-12 are prohibited from crossing while in the process of embarking or disembarking from the school bus. The four "restricted" roads are Clinton St., Seneca St., Transit Rd., and Route 20A. Bus service for these roadways is designed to pick up students on the same side as their residence. Any questions regarding this Transportation Policy should be referred to: **Mr. Eric Nagel, Supervisor of Transportation at 652-3000, ext. 8002.**

**Full Access to Programs for All Students, Equal Employment and Educational Opportunity (Title IX)**

The Iroquois Central School District does not discriminate on the basis of race, color, sex, disability, sexual orientation or national origin in access to its programs and activities. No student will be excluded on such basis from participating in or having access to any course offerings, student athletics, counseling services, extra-curricular activities, or other school resources. No person shall be denied employment solely because of any physical, mental, or medical impairment which is unrelated to the person's ability to engage in activities involved in the job for which application has been made. The Title IX Officers for the Iroquois Central School District are Christian Hershey and Douglas Beetow, PO Box 32, Elma, NY ( 652-3000, ext. 1001). The Iroquois Central School District has an established grievance procedure for the prompt and equitable solution of complaints alleging discrimination based on sex or disability. ### **Crisis/Emergency Management Plan**

The Safe Schools Against Violence in Education Law (SAVE) and commissioner of education regulations require school districts establish a district wide school safety plan. In order to provide a safe and secure environment, the Iroquois Central School District adopted a comprehensive plan that outlines specific actions and responses to any crisis or emergency. Building-based emergency response plans are in place at all Iroquois schools.

### **Public Access to Information**

Certain district records are available for public inspection and copying in accordance with the Freedom of Information Act. Records available for inspection in accordance with the law may be inspected after an application for Public Access to Records form is completed and returned to the Records Access Officer. Records may be inspected in the presence of authorized school personnel during the regular workday. Copies may be obtained for 25 cents per page. Please call Records Access Officer, John Wolski (652-3000 ext. 1201) for more information.

### **Family Rights and Privacy Act**

The Family Education Rights and Privacy Act (FERPA) is a federal law that protects the privacy of student records. The Act affords parents or legal guardians of a child under 18 years of age or students and former students over 18 years of age the right to inspect, review, and challenge information and data in the student's educational record file. Requests for access to a student's school records must be submitted in writing to the Superintendent of Schools, guidance counselor, or principal. Upon receipt of a request, arrangements will be made to provide access to the student's records within a reasonable amount of time, but not more than 45 days after the request has been received. Student records are confidential and may not be released or made available to persons other than parents or students without the written consent of such parents or students with the exception of "Directory Information".

## ITAC

ITAC is a Drug & Alcohol Prevention Coalition for Elma, Marilla, Wales, and surrounding areas. ITAC stands for "It Takes A Community." Our mission is to increase awareness of and reduce youth substance use within the community & enhance communication between parents, youth, educators, & residents, while utilizing data to drive prevention efforts, promote education, & provide access to resources.

You may have wondered – why is ITAC a “coalition”? What does “coalition” mean? Coalition, in general, means a group of people from diverse interests and backgrounds coming together for a common cause.

According to CADCA (Community Anti-Drug Data-Driven Coalitions of America), coalitions empower local communities to solve their own drug and alcohol related problems. By mobilizing the entire community—parents, schools, youth, law enforcement agencies, health care providers, faith-based communities, media, business and civic leaders and others (what we call “sectors”)—communities can transform themselves. ITAC is the vehicle for this platform, facilitating collaboration and executing actions on behalf of the coalition.

We are proud of our partnership with all our sector members and are appreciative of their support and commitment to ITAC's mission of prevention and education. If you are interested in becoming involved in ITAC's coalition, please visit our website [www.itacemw.com](http://www.itacemw.com) for more information or email us at [itacemw@gmail.com](mailto:itacemw@gmail.com).

All are welcome to our General Coalition meetings which are held in the Iroquois Board Room #32 in the Iroquois

District office. Meeting dates and times are listed on our web page.
